SEN. SYMINGTON, McCARTHY HATER, CONNIVED OPENLY WITH FAMOUS COMMUNIST IN KEY WAR INDUSTRY

By Robert H. Williams, Williams Intelligence Summary, Box 868, Santa Ana, Calif.

At least two major motives can be offered in explanation of Sen. Stewart Symington's furious attacks on McCarthy and his efforts to block McCarthy's exposure of Communists.

1). The Red trail was apt to lead to Symington's own past; and

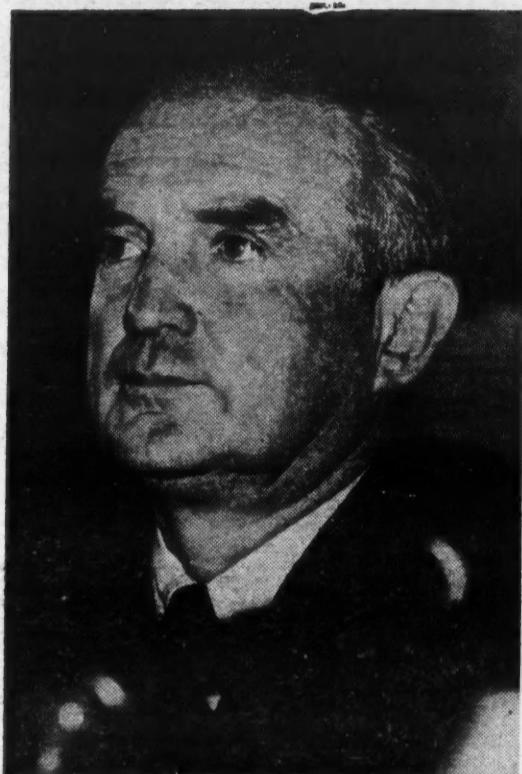

2). Baruch reportedly had fingered Symington as a potential Democratic nominee for President in 1956 and it was up to Symington to make good.

To remind you, in case you have forgotten: Symington battled McCarthy and from day to day tried to belittle him and to frustrate his digging out of Communists. One of the monitored telephone conversations caught Democrat Symington in the act of sicking Republican Secretary of the Army Stevens on to the Republican dominated McCarthy Committee and suggested that Stevens get Truman's former adviser, the Democratic New Dealer Clark Clifford, to help him shape up his case. Symington was so involved in the intrigue that from time to time in the conversation he used the expression "we" and "let's", naive Stevens accepting the advice in the most friendly spirit. McCarthy charged that Symington had used Stevens in a maneuver to split the Republican Party and at the same time block the exposure of Communists in the government.

To Please Baruch

To discuss the second reason first: Reports, apparently well founded, say that Baruch some months ago had Sen. Symington brought around to see him and was favorably impressed with him as a potential candidate for the Democratic presidential nomination in 1956 (in case Adlai Stevenson faded). But Baruch became displeased with Symington's lack of skill in combatting McCarthy inside the McCarthy committee.

About this point the McCarthy-Army hearings broke out and it was in these hearings, before the nation's TV cameras, that Symington launched such overt attacks on Senator McCar-

he messed himself up politically before the TV cameras.

As for the first probable reason, noted above, go to your library and read an article entitled A Yale Man and a Communist in Fortune magazine, November, 1943. This amazing story told how Symington, the Yale man, teamed up with William Sentner, the Communist,

Un-American Activities To Be Used By Jewish Marxists

Rumors are current that the House Committee on Un-American Activities, which has done a splendid job of exposing certain phases of the U. S. Marxist movement, is now to investigate "Common Sense" and its editor. According to segments of the organized Jewish press the investigation will be the result of pressure from Marxist organizations like the Anti-Defamation League of B'nai B'rith, the American Jewish Congress (which is backing a suit to put "Common Sense" out of business) and others. Apparently the exposure by "Common Sense" of the un-American, anti-Christian and Marxist activities of certain Jews and Jewish organizations is hurting. In any event it should be noted that there is no fear here of any investigation by the House Committee or anyone else. "Common Sense" will continue to fight for the highest principles of Christianity and Americanism and against those who would undermine the Nation, whether they be Jewish or otherwise. Such an investigation might well prove to be an avenue whereby truth can be brought before more Americans than ever before — God willing, our enemies will not prevail in a new attempt to silence us.

And we know that there are real Americans in every corner of the United States who will demand that any hearing be made in the open so all may know the truth.

A real American

thy. Joe was so much smarter than "Stew", and so devoted to country, that Symington apparently lost every round, measured in public reaction (admittedly my estimate). Then when the transcript of a conversation revealed Symington—a member of the committee "trying" McCarthy—as one of the principal instigators of the Communist-obliging anti-McCarthy farce, the Missouri New Dealer's political goose got cooked fast, or so it seemed to me. The harder Symington tried to please the Baruch crowd the more

FRED WOLTMAN'S RED BACKGROUND

FREDERICK WOLTMAN (JEW)

Recently Frederick Woltman ran a series of articles in the Scripps-Howard chain of newspapers which was one of the most vicious attacks against Joe McCarthy ever made outside of the official Communist Party press. In fact the "Daily Worker" could take lessons from Woltman in the technique of vicious innuendo, smear, and outright lies.

Woltman is built up in this series of articles as an "anti-communist" for the past sixteen years, a man who had been fighting the communists when McCarthy was in knee pants.

The truth or falsity of that statement may be judged from an examination into Woltman's background. Unhappily for him his own PRO-COMMUNIST listings throw the lie in his face.

In the Hearings on "Subversive Influence in Certain Labor Organizations", by the Senate Internal Security Organization, of Dec. 21, 1953, Arthur McDowell testified as follows: "In the spring of 1929, I became interested through the American Civil Liberties Union in the Mooney-Billings case as a labor cause, and the Liberal Club, with my consent as a board member, arranged a meeting on the Univ. of Pittsburgh campus on the Mooney-Billings case. The meeting was subsequently disallowed by the authorities, and a clash resulted with the Univ. of Pittsburgh authorities, the consequence of which was that William Albertson (indicted under Smith Act—editor's note), myself, and a graduate assistant who was not directly connected, by the name of FREDERICK WOLTMAN, now employed by the New York World-Telegram, and so forth, were expelled." (p.3)

On May 9, 1928, he was arrested in White Valley, Pa., for inciting to riot as a participant in a picket line led by Anthony Minich, notorious Communist leader. The picket line was organized by a Communist outfit called "Save the Union Committee".

The "United Mine Workers Journal, May 1, 1928 (one week before Woltman was arrested) declared: "In carrying out their campaign, the 'Save the Union Committee' has had the full and complete support and assistance of the entire Communist element in America."

Woltman was not a coal miner. He joined the picket line as the Pittsburgh secretary of the American Civil Liberties Union, cited as a Communist front.

For years Woltman publicized the "Friends of Democracy", a Marxist-front, their main targets being Anti-Communists.

Woltman is a front-man for the Anti-Defamation League, which is run by Arnold Foster (Fastenberg), identified in the "Congressional Record" of June 8, 1950, as a member of a Communist spy ring.

Bringing Woltman's record up to date we find that in 1948 he joined the faculty of the leading Socialist propaganda institution in America, the notorious Rand School, owned by the American Socialist Society, once convicted of violating the Espionage Act.

Further he wrote that "I have long been convinced that there is absolutely no Communist background to the United World Federalists, Inc." This is of course an absolutely false statement. Woltman's articles have been sold by the UWF, and he has helped write propaganda for Rex Stout, another Communist-fronter. (Above information from "Headlines", Dec. 31, 1951).

The Scripps-Howard chain boasts that it supported Russia's recognition in 1933. Knowing this we understand better why these anti-McCarthy articles were featured by it.

their mutual gain—and a great contribution to Soviet power in our country.

Both Fortune magazine and official reports had identified Sentner as a leading Communist organizer in the United States. Sentner had closed down the small Emerson (not Edison) Electric Company plant at St. Louis with an airtight strike. Then Symington, the far left New Dealer, became president and chairman of the board. Arm-in-arm with the fully identified Communist labor agitator, Symington, landing huge war contracts from the Communist-dominated Roosevelt administration, ballooned Emerson into a major company.

Rosenberg Spied There

In 1936 Sentner reportedly had boasted that if he could succeed in organizing (for Communism) the Emerson company he could organize the entire U. S. electrical industry. Thanks to Symington he not only organized Emerson but virtually dominated it from 1938 to 1946 (when Symington resigned to accept a Truman appointment as Assistant Secretary of War for Air).

And in the meantime almost the entire U. S. electrical industry fell under Communist domination through the CIO Electrical Workers Union, the vehicle of William Sentner.

The Fortune magazine article (written while this Communist operation was still going on) said Symington brushed off warnings about dealing with the Communists, with the (Communist-line) excuse that "a man's politics have nothing to do with the case, anymore than the fact that Symington, a Democrat, supported Dewey in 1940 and later voted for Wilkie".

All this buddyng-up to Sentner took place despite Sentner's long record of arrests and investigations for violent Communist operations, including a conviction in 1939 in Iowa on a charge of criminal syndicalism. (Sentner was convicted in May, 1954, while Symington was attacking McCarthy, along with four other Communist Party officials, under the Smith Act.)

In one heated exchange "Stew" told McCarthy there could be no Communists in war industry plants because Department of Defense officials were constantly investigating and prodding industrial managers to keep the Reds out. He said they worked with him in constant vigilance during the war.

Figure that one out.

And while figuring it out, add to the above information the fact that the War Department (as it was then called) threw its most secret contracts to Symington and Comrade Sentner, including the then top-secret radar devices.

Small wonder that Senator Symington objects to McCarthy's exposure of Communist activities.

Sanctimonious Stu

Few people know that "Sanctimonious Stu", to use Senator McCarthy's apt description, had as a special consultant to him while he was Secretary of the Air Force under Truman, the infamous Anna Rosenberg. She has listed this fact in her biography in Who's Who for 1952-53. A thorough investigation would most likely reveal that Anna Rosenberg, identified as a member of the Communist John Reed Clubs, is still exercising her powerful influence in the Army-McCarthy controversy as a member of the invisible Jewish conspiracy dominated by Bernard Baruch and his cohorts.

In addition, Symington's role in the McCarthy Hearings which preceded the McCarthy-Army controversy has never been fully revealed. The following testimony from the Hearings on the "Army Signal Corps-Subversion and Espionage—Part 10, March 10 and 11, 1954" before the Senate Permanent Subcommittee on Investigations shows Symington's tactics vividly:

Testimony of Peter A. Gragis:

"Mr. Cohn. You did the collecting. Now, the citation of the American Committee for Spanish Freedom, it was cited by Attorney General Clark, it has been cited by the House Committee, so on and so forth, Mr. Chairman.

Now, to whom was your contribution for this Communist front made payable?

Mr. Gragis. To Dr. Albert Einstein.

Mr. Cohn. And have you produced for us a canceled check made out to Dr. Albert Einstein for \$21.00, signed Peter A. Gragis?

Mr. Gragis. Yes; I have, and also to the F.B.I.

Mr. Cohn. Yes, sir. And the back of the check shows an endorsement by Albert Einstein and the fact the check was deposited to the order of the American Committee for Spanish Freedom?

Mr. Gragis. That is right.

Mr. Cohn. And the check is dated November 16, 1945?

Mr. Gragis. Yes . . .

Senator Symington. I do not know what organization you are talking about. I have already forgotten the name. But in effect you are say-

ing that you were collecting money for the Communist Party in order to send it to Dr. Albert Einstein. That, in fact, implies that Dr. Albert Einstein was a Communist.

Now I think you ought to clarify that situation, unless you know that he was a Communist.

And the only reason that you were collecting the money was because you had a letter from him asking him to help somebody?" And so on and so on.

Symington tried in every way he could to make the witness back down on his charges and thus soften this damning proof of Einstein's Communist background.

Stop Jewish Plundering In Germany

France is presently under the Jew P. Mendes-France, who has the support of the Communists and the Blum, Moch, Schuman, Mayer Zionist Invisible Government. Great Britain, with her Rothschild controlled government, is in no better condition than France, and is conspicuous in its aid to the Communists and friendly acceptance to Red officials. Just recently Churchill boasted that he was a Zionist, (New York Times, 6-29-54) and American Hebrew 7-2-54) which accounts for the love England has for anything RED.

Italy, with a third of its voters registered as Communists, stands with it's back against the wall meekly ready to succumb to the Red aggressors if they should come. China with 400,000,000 people has been turned over to the Communists lock, stock, and barrel, along with the rest of the Asiatics. Poland, Czechoslovakia, Latvia, Estonia, Bavaria, Rumania, Hungary, East Germany and the major part of Europe has been consumed by the Marxist Jewish Beast into the "People's World Government Democracy".

Sixteen years ago there stood before the forces of atheistic Communism a bulwark of Christianity, with intelligent leaders who thoroughly understood the evils of Marxism. With everything else being equal Communism was stopped dead in it's tracks and for a short period it appeared as if Christianity was the ultimate victor. But Christianity was soon to receive a fatal setback which was totally unexpected.

This fatal set-back was not altogether due to the lack of judgment of those who were in charge of Christian strategy, but more so because they failed to realize the tremendous world power of the "Jewish" cabal. The people of Europe knew the machinations of the Mongolian Khazars who had flooded Europe after World War I, for these anti-Christian hordes had made several abortive attempts to seize control in the past. But what they didn't understand was the powerful influence the "Jews" had in the United States. The last thought in their minds was the possibility of the United States being thrown into the battle on the side of Communism.

The Final Secret Of Pearl Harbor

The Washington Contribution to the Japanese Attack

The author is Rear Admiral Robert A. Theobald, U.S.N. (Ret.), who was at Pearl Harbor on December 7, 1941, Commanding the Destroyers of the Pacific Fleet. Two other distinguished admirals have contributed corroborative forewords: Rear Admiral Husband E. Kimmel—on-the-spot Commander, and Fleet Admiral William F. Halsey, U.S.N.

There are three ways of "Remembering Pearl Harbor."

First as that infamous day the Japanese sneak-attacked our Pacific Fleet without provocation. Second, as the day the U. S. suffered its greatest military disaster in history, with 3303 dead and 1272 wounded. Third as the day President Franklin D. Roosevelt succeeded in taking a reluctant Nation into war against the Axis powers.

It is with No. 3 that this book deals. Whether F.D.R. was justified in taking the course he took is for history to decide. In this particular instance, two fine officers—Admiral Kimmel and General Short — were saddled with the blame after thousands of lives had been sacrificed and a great fleet humbled.

That F. D. R. alone was responsible for the helplessness of the Pacific Fleet and the unpreparedness of Admiral Kimmel and General Short is the thesis of this book. That he had ample advance warning of the attack on Pearl Harbor, which he failed to pass on to Kimmel and Short, is proved beyond question for any fair-minded person.

"Three Hollywood Leaders Photographed At Red Front Meeting"

Edward G. Robinson (Emanuel Goldenberg), Dore Schary and Danny Kaye (David Daniel Kominski).

The un-American Activities Report of California (1948) on page 254 describes the meeting at which the above picture was taken in this language:

"The committee of the Legislature on Un-American Activities in California in its 1947 report found the Hollywood Independent Citizens Committee of the Arts, Sciences and Professions a Communist front, and the Senate Fact-finding Committee on Un-American Activities in California reiterates the 1947 finding.

"On June 27, 1945, the Hollywood Independent Citizen's Committee of the Arts, Sciences, and Professions presented 'The American Caravan'. It was represented as a 'forceful, dramatized plea for the continuance of allied unity and for the aggressive support of the United Nations Charter.' According to the postcard announcement in the files of the Senate Committee, the presentation starred Bette Davis, Alfred Drake, Joan Fontaine, James Gleason, Danny Kaye, Edward G. Robinson, Orson Welles and others. It was held at the Philharmonic Auditorium and the admission was free."

We see from the caption under the picture that Danny Kaye gave a speech, Dore Schary directed the production, Edward G. Robinson acted in it.

The letterhead of the music division of the HICCASP as of July 27, 1945 (p.254) listed Dore Schary as a vice chairman and Danny Kaye as the treasurer.

Can You Answer These 16 Questions?

(The following was sent to Common Sense by one of our readers with the remark that it was written by "a patriotic American business man".)

We in America should be thankful, indeed, to God for all our blessings. It is imperative that we be diligent in safeguarding them.

As we start a new year in our national history, we find our country facing the gravest crisis since our forefathers brought into being our magnificent Constitution and laid the groundwork for the greatest nation in world history. The year 1954 is a year of decision for our country.

On November 23, 1953, President Eisenhower said in part, "If we are going to continue to be proud we are Americans, there must be no weakening of the code by which we have lived, of the right to meet your accuser face to face."

Our President might well have added that we have the right and duty to meet our enemies face to face.

It would be well for our lawmakers and citizens to ponder some of the following questions:

1. Who permitted the brazen Department of Justice whitewash of the Amerasia Case after the F.B.I. had caught the conspirators red-handed with over 1,700 top-secret documents?

2. Who initiated the policy in the Middle East which is leading to war and alienating four hundred million Moslems, Hindus, and Arabs, many of whom are strategically located at the soft underbelly of Russia?

3. Who promoted and pushed us into recent wars?

4. Who originated the policy our country followed for many years of strengthening the Soviet Union while at the same time weakening the United States?

5. Who conceived the United Nations with its sinister plan to ensnare and destroy the United States, and who is now proposing two diabolical instruments, the Geneva Genocide Covenant and the Covenant of Human Rights?

6. Who pushed through the Nuremberg Trials, which gained us the hatred of the Germans and set a dangerous precedent?

7. Who built up our Communist labor leaders and originated laws to divide and weaken our people?

8. Who permitted the turning over to Russia of the bona fide U. S. Treasury engraved plates, ink and our special paper so the Russians could print money which diluted the value of all money owned by Americans?

9. Who schemed up the graduated income tax to weaken us so that our people would depend upon an evergrowing Government bureaucracy?

10. Who regularly promotes crises so that they may grab some of the precious rights given us under the Constitution and Bill of Rights?

11. What group put Harry Dexter White in the powerful Treasury post and kept him in power? Could this be the same group which caused the firing of General MacArthur because he would win in Korea?

12. Why do trick laws and loopholes permit spies and traitors to go unpunished by hiding behind the Fifth Amendment?

13. How did the control of most of our big foundations get into the hands of the internationalist group?

14. Who financed in our country the campaign to condition and sell us the unsound Keynes theory of manipulated currency?

15. Who worked out schemes that no longer permit Congress to control the printing of our money, as provided by the Constitution?

16. How long are our children to be subjected to ill-advised teaching in our schools, indecent and obscene comics, and suggestive and bloodcurdling motion pictures and TV programs? This is rapidly approaching a national scandal.

DULLES CONFERS WITH BARUCH

Diplomatic circles buzzed with curiosity over the disclosure that Secretary of State John Foster Dulles, who has been trying to repair some of the diplomatic damage suffered over Indo-China, had flown here Sunday for a four-hour conference with Bernard Baruch.

He talked with the 83-year-old adviser of Presidents in the privacy of Baruch's Mill Neck estate on Long Island.

No hint was available either here or in Washington as to what they discussed. Dulles arrived in an Air Force plane and was met at Mitchell Field by the financier at 11:25 A. M. His plane headed back for Washington at 4:06 P. M.

The author of the Baruch plan for international control of atomic energy is often consulted by government officials on various problems. Just five days ago he lunched with President Eisenhower at the White House.

Above republished from New York newspaper
of July 27, 1954.

Baruch is top man of the Invisible Government and a great adviser. When he started advising his first President, Woodrow Wilson, this U. S. Government (you taxpayers) owed One Billion Dollars which was the national debt. Today it is 274 billion, just one billion under the limit set by Congress, and we have been through three wars. What an advisor!

DAILY NEWSPAPERS ARE NO LONGER FREE

Why is it that the daily newspapers do not print the facts found in Common Sense? That is a good question and if every good American would learn the answer, it would be an important step towards saving our country from the two communist movements: Soviet Union Communism and Trotsky Communism (Zionism).

Answer the question for yourself; take your big newspapers, turn the pages, note who the advertisers are. At least 99% in the East are Jewish, and nearly the same in any city. They are for World Government and opposed to Senator McCarthy, the Un-American Activities Committee, McCarran-Walters Emigration Law; they are either for Soviet Union Communism or they are Trotskyites (Zionists). No large newspaper for a half million cash would dare to publish one of the main articles appearing in Common Sense. The Anti-Defamation League (Jewish Gestapo) would see that all the advertising would be transferred to another paper. No newspaper can operate without advertising. Jews own the stores which can advertise, hence they can and do control the press in addition to television, radio and movie.

Is there anyone who will deny the above?

Winner Of The Shoddy Show

RICHARD LLOYD JONES, Editor

Reprinted from the Tulsa Tribune, June 26, 1954.

Are we going to send our sons to die in Asia? While the tragic incompetencies and timidities of our successive Secretaries of State, Marshall, Acheson and Dulles, are revealed in our surrender to the United Nations, and our impotency at Geneva, our attention has been deliberately diverted from the real issues that confront us to a petty, White-House-inspired plot that attempts to destroy a United States Senator for doing his duty. We would worry less about war if every Senator did his full duty as well as the Senator the White House wants destroyed.

By his own admission, our President concedes that there are twenty-five thousand active enemies in our country. They want to destroy us. The FBI, knowing our perils better than our President, puts the figure of our foes right here among us at half a million traitors. Yet our President says that Communism will not be an issue in the November elections.

But, it WILL. And the President cannot stop it by mounting the rostrum at Columbia University to deliver a lot of pious platitudes on freedom of speech while he himself is choking freedom.

Confronting great perils the President cannot loosely talk about "demagogues thirsting for personal power and public notice." That is cowardly. Name the demagogues.

For weeks past the attention of the American people has been attached to the radio and television reporting of the silly circus our War Department, and our Justice and our Executive branches have directed. While shrieking their claims to honesty and patriotism they have violated those very virtues. Everything, low and contemptible, falsehood and smear, has been hurled at the Senator who is trying to reveal our enemies.

No man in the history of the United States Senate has been more maligned, insulted and lied about than Joe McCarthy of Wisconsin. And the liars who traduce him for his true-to-country devotions have used conscienceless newspapers and commentators, stupid teachers and gullible preachers to broadcast the character defamations.

There is a scheme to destroy this Republic. It is the pledge of every Communist in our country, (a half-million of them says the FBI). An officer in the United States Army was found to be a traitor. Yet somebody in the Army, or in the Executive branch of the government, gave him a promotion and an honorable discharge. Can you imagine the fathers of our country so elevating and honoring Benedict Arnold? And our President draws a curtain that says "The truths about treason shall not be known." To

AN APPEAL FOR COMMON SENSE

On September 8th further hearings will begin in the suit entered against Common Sense by Rabbi Joachim Prinz, Vice President of the American Jewish Congress. The Jews cannot hope to win this suit. Their plan is to crush Common Sense by dragging on a long and costly series of court proceedings. There have already been four long-drawn-out preliminary hearings, during which your editor was questioned about matters irrelevant to the suit. By such tactics, the American Jewish Congress hopes to bankrupt us and force us out of the anti-Communist movement. They are willing to spend unlimited funds in this fight.

We have lately entered counter-suit charging slander. We need thousands of dollars for legal transcripts and fees for the September hearings. We have three capable attorneys. Common Sense needs every bit of help you can send us.

During the past year, your contributions have enabled Common Sense to reach many thousands of new subscribers and warn them of the anti-Christian forces at work in America. We are confident that with your help we will emerge triumphant from this struggle, better fitted than ever before to alert the American people about the enemy in our midst.

divert the people he and his aides plot the so-called "Army-McCarthy hearings." When it backfires as a total flop, a ridiculous waste of time and money, they blame it on the Senator. They say "he started it." And that is a lie. Lying is not a practice in honest government.

President Eisenhower and his colleagues, in both Parties, have been exposed for conniving to destroy a Senator for doing his duty. The President uses this White-House-made confusion to further his platitudinous plea for political unity. He wants one Party. Its head to be a dictator.

It was Eisenhower's ambition to be the candidate of both Parties united by him into one. He wants to destroy our two-Party system. And it is the two-Party system that has made us mighty. So soon as you have but one Party you set up a dictator. All of Eisenhower's efforts have been directed toward seasoning the public mind to accept one Party. Then Socialism. Socialism is the threshold of Communism. And the half-million Communists in our country who have brought us to this crisis are, by our President's own words, not worth a worry. What does he mean?

There were Republicans gathered in Chicago in '52 who feared the nomination of Eisenhower would produce disaster. They were afraid he did not have the courage of a Joe McCarthy, the stubborn patriotism of a Jenner, a McCarran and a Velde. And now they have found out that their fears were well founded. And Communism IS an issue. It has led us to the peril of sending our sons to die in Asia's jungles.

This investigation has amused the unthinking. And our peril is, we have so many of them. A Flanders from Vermont may strut his little stuff but he shows none of the patriotism of his forebears among Ethan Allen's Green Mountain boys. They were rifle-men, Minute men, builders of an America that was to become the land of the free and the home of the brave. How mortified they would be were they to know their state descends to Flanders now.

That investigation cannot be laughed off. It began when Dr. Wirt, of Gary, Indiana, years ago reported treason at a dinner table. And the five hundred thousand Communists in our country began with Eleanor's party at the White House.

Little Senator Tydings, of Maryland, thought he was the big Goliath. He declared, "Give me three days of public hearings and McCarthy will never show his face in the Senate again." Poor fool. Where is his face now? The Senate does not know what Tydings looks like now.

The extreme Leftist Senator from Connecticut, William Benton, was another who was going to destroy McCarthy for revealing Benton's Red playmates. Where is Benton now? No one knows. But McCarthy grows in stature as the people comprehend his single purpose and heroism. Instead of destroying McCarthy, the hearings that were designed for his elimination have made the whole nation aware of the littleness and meanness of the Communist coddlers.

What was the Senator's offense? He, as none of his traducers, has been determined to destroy our enemies before they destroy us.

By all accounts James Buchanan was a likeable chap. Great issues were rising irresistibly in the four years he lived in the White House. He was afraid of them. He was a pathetic President. He enjoyed the social life of his position, but he evaded the issues a brave President would face and fight.

So a Giant came over the horizon. The sophisticates of New York, Boston and Philadelphia ridiculed the awkward gawk from the prairies of Illinois. And today our eastern press and sophisticated commentators ridicule, smear, lie, denounce and receive pulpits and pedagogic support in their infamy, but the truth will come out. No Iron Curtain a timid President draws around the truth can make him the master of a one-Party dictator power.

Who won the silly battle televised and contemptuously reported by sources sympathetic with subversives? Who won? McCarthy or the Army? The victory was bigger than both. The loser of prestige was President Eisenhower. His Party now clamors to re-affirm its pledges to the people which Eisenhower has repudiated. They who made the shoddy hearing did not plan to have it end as it did, an indictment of those who started it. The victor is America herself. AMERICA WON.

From The Discourse Given By Saint Pius X On The Occasion Of Beautification Of Saint Joan Of Arc, December 13, 1908

"In our time more than ever before, the chief strength of the wicked lies in the cowardice and weakness of good men. All the strength of Satan's reign is due to the easy-going weakness of Catholics. Oh, If I might ask the Divine Redeemer, as the prophet Zachary did in spirit: 'What are those wounds in the midst of thy hands?' the answer would not be doubtful: 'With these was I wounded in the house of them that loved me.' I was wounded by my friends, who did nothing to defend me, and who, on every occasion, made themselves the accomplices of my adversaries. And this reproach can be levelled at the weak and timid Catholics of all countries."

WE ARE AT WAR

The following is republished from the Congressional Record and is an address by Congressman Noah Mason of Illinois, delivered in Congress April 27, 1954.

MR. SPEAKER, in view of the McCarthy-Army trial that is now being held, and in view of the attacks and insinuations that are being aimed at the Senator by left-wing commentators and columnists, perhaps the following sentiments will not come amiss. They express my own feelings in connection with Senator McCarthy and his work.

Mr. Speaker, I have been asked many times, "What about Senator McCarthy?"

I have always answered about as follows: "Senator McCarthy is a great American. He has done more to uncover, expose, and get rid of Communists in our Government departments than any other one man in America. Joe's batting average is extremely high, about 95 per cent efficient."

Many unthinking people say, "Oh, I approve Senator McCarthy's objectives, but I do not approve his methods."

The answer to the criticism is: "If you are fighting in the ring, under well established rules, with a referee to see that the rules are obeyed, then you fight according to the rules. But if you are fighting a bunch of gangsters and hope to get results, you follow no rules; you wear no kid gloves; you wear 'brass knuckles' if you have them; you swing a club if you can get hold of one. It is a fight with no holds barred—any method to achieve victory."

Senator McCarthy has tackled the worst and most dangerous gang of cut-throats in the country, a gang out to destroy our American heritage, our liberty, our religion. Any American citizen who hides behind the fifth amendment and refuses to answer "Yes" or "No" when asked if he is, or ever has been, a Communist, is not entitled to "kid glove" treatment.

If you look at the record, you will find that many "pinkos" given clearance by loyalty boards under Roosevelt and Truman — not once but several times — have been proved to be "subversive" by the McCarthy committee.

Is Senator McCarthy Popular?

Mr. Speaker, left-wing newswriters and commentators have made a great hullabaloo over the supposed mistakes of the Senator. The enormous service that Joe has rendered the American people is entirely ignored by our so-called liberals and socialists.

Senator McCarthy has 10 times as many invitations to speak as any other Member of the United States Senate. Len Hall, national chairman of the Republican Party, has booked Senator McCarthy solid for the 3 months preceding the fall election, and most of those speaking engagements are placed in doubtful Republican congressional districts. That is how popular Joe is with the American people.

It also indicates how valuable an asset the National Republican Committee believes Senator McCarthy is to the party — in spite of the words of criticism Len Hall has uttered for public consumption.

By and large our American people are sound and sensible. Instinctively they know whom to trust and whom not to trust. The great majority of Americans today, Democrats and Republicans alike, believe in and swear by Senator McCarthy — in spite of the howls emanating from the Daily Worker, the left-wingers, and their dupes who stupidly follow the Communist party line.

We Are At War!

Mr. Speaker, there is a war going on, a war between communism and Christianity, a war between individual liberty on the one hand and dictatorship of the state on the other. It is a war to the death. We need more Patrick Henry's and Joe McCarthy's if we are to win this war and survive.

COMMUNIST - SOCIALIST PROPAGANDA IN AMERICAN SCHOOLS

By VERNE P. KAUB

This is a book for Americans to buy for themselves and their friends; to place in the hands of teachers who are misled by false prophets, and school board members who are hoodwinked into purchase of poisonous textbooks. Insist that this book be properly displayed and catalogued in public and school libraries; write to the newspapers about the disclosures in this book, and in all possible ways, get the truth to the people!
